RECOMMENDATION:

Staff recommends the City Council approve and allocate \$10,630 awarded by the California State Library to directly support Zip Books Services.

BACKGROUND:

Zip Books Services supports multiple goals of the Library Services Department including providing cardholders with unique and popular titles in a timely manner, increasing opportunities for patron-driven acquisitions and meeting the community's demand for diverse and inclusive collections.

ANALYSIS:

Approval of these grant funds will help pay for the acquisition of additional library collection materials and cover the related direct-to-patron shipping expenses.

FISCAL IMPACT:

This grant provides additional funds from the California State Library to supplement the Library's materials budget and will be added as additional revenue to the FY 2022-2023 Budget. This grant does not require any additional City matching funding. Funds from this grant will be placed into Library revenue account 1291000-4740 and appropriated into Library expenditure accounts in the following manner:
